NUMB. 5028

THURSDAY, MAY 30, 1745.

Yesterday arriv'd a Mail from Holland.

Constantinople, April 6.

**T**HEY continue to amuse us here with improbable Accounts both of Peace and War; for, on one Hand, it is asserted by the Friends of the Ministry, that the Shah Nadir has propos'd Terms of Accommodation, which have been rejected; and, on the other, that we are to take the Field this Campaign with three different Armies. Of these the First is to be commanded by Mahomet Basha, who is declar'd Governor-General of Natolia, and is to consist of 60,000 Men; which is to act on the Side of Persia. The Second will consist of 30,000 Men, under the Command of Achmet Basha, Governor of Aleppo; and these are to assemble in the Province of Diarbekir. The Third, of 15,000 Men, is to act under Hussein Basha. Besides this, we are to have a Corps of 12,000 Light-arm'd Troops on the Frontiers of Persia. The Plan of these military Preparations has been sent by the Grand Signior's Order to Osman Basha, heretofore styled Count Bonneval; whose Age and Infirmities disfigure him from assisting at the Deliberations in the Divan. We have strangled, and cut off the Heads of abundance of People, on Suspicion of their being concern'd in the late dreadful Fire which consum'd the Arsenal, burnt three, and damaged Nine of our Ships of War; but no body here believes they were guilty; but, on the contrary, think the Ministry took this Opportunity of dispatching out of the Way such as had no good Opinion of their Proceedings; which terrifies People exceedingly. The Capudan Basha, who is very rich, is demand'd to make the Loss good at his own Expence, in Pain of losing his Head.

**Genoa, May 15.** This Republic continues still to keep up her Military Preparations, and to act as if she had no Fears. We are certainly to furnish a Body of 12,000 of our best Troops, with a proportionable Train of Artillery, for the Service of the Crown of Spain. Two thousand of our Militia have been sent for to reinforce the Garrison of this City, and have been new cloath'd and march'd at the publick Expence. The Count de Gages must have march'd at a very great Rate; since last Night 2000 of his Van Guard arriv'd in our Suburb of Magna. We apprehend that the whole Army will march under the Walls of this City, for the Valley of Milvera, where they will wait for the Forces under the Command of the Infant; the Van Guard of which is expected on the 20th at St. Peter D'Arena. The French are assembling a Body of 20,000 Men at Antibes; and some fancy that we shall have their Company also. Within these few Days we have received 110 Chests of Treasure belonging to the Spaniards; which is said to be the last Subsidy they are to pay to this State. Three English Men of War that were in this Port failed Monday, steering their Course East; whereas the other Ships of the same Nation, that were in the Bay of Genoa, and failed the same Day, shap'd their Course to the Westward. The Report spread of a Treaty between the Courts of Turin and Versailles, proves a mere Fiction, and was invented to serve certain Purposes; which, however, it has not answer'd by any Means, having never had any great Credit.

**Chambery, May 18.** According to the last Advices from the French Camp at Barcelonetta, the Troops which compose it have receiv'd Orders to march directly to Neiss. According to private Letters from France, we learn, that notwithstanding all the Appearances to the contrary, the Republick is under the most Apprehensions on the Arrival of the Spanish and Neapolitan Armies in her Neighbourhood, for fear they could either seize the City, or take Possession of some other Place of Consequence in their Dominions. It is chiefly to prevent this, that they have had Recourse to these extraordinary Precautions; such as ordering all the Townsmen to take Arms, and, at the same time, appointing a Dictator to take care the Republick does not suffer in this delicate Conjuncture. We learn from Chambery, by Letters dated the 13th, that a Squadron, consisting of Thirty-three English Men of War, has lately appear'd on the Coast of Provence.

**Vienna, May 22.** There arriv'd here Yesterday four Couriers from different Quarters; but nothing hitherto has transpir'd as to the Contents of their Dispatches. The same Morning the Equipage of the Duke, Co-Regent, set out for the Empire; and his Royal Highness will follow on the 28th. The Armies of Count

Traun and M. Bathiani are to join; and the Duke, Co-Regent, will command the Whole, having the two Field Marshals under his Orders. It is at last decided, that Prince Lobkowitz shall continue to command the Queen's Forces in Italy. We have receiv'd lately upwards of 100 Mules from that Country; 60 of which were laden with all the rich Effects and Curiosities belonging to the House of Medicis, said to be worth 12 Millions of Crowns.

**Frankfort, May 30.** The French have entirely quitted the Lahne; Part of them have pass'd the Rhine, and others the Main; the former have established their Head Quarters at Schwanheim, which is but three Leagues from hence; and the latter at Nierstein. The Prince of Conti has actually reinforced the Army of M. Segur with 15,000 Men, and is preparing to take the Command of it; which when he has done, it is thought he will march to Wertheim, in order to oppose, if it shall be found practicable, the Army of Count Traun, and hinder his passing the Main. This Morning we heard they had sent for a vast Number of Waggon; from whence we are inclin'd to think, that his Highness, in reality, meditates a Retreat. We have this Moment News, that, besides the 10 Battalions, and 20 Squadrons his Highness lately detach'd to the Low Countries, he has given Orders for 13 Battalions, and 20 Squadrons more to hold themselves ready to march thither Tomorrow. If this News should prove true, we should be in greater hopes than ever of being entirely rid of such bad Neighbours; since his Army would then be too weak to think of opposing the Austrians in earnest.

**Brussels, May 31.** The Day before Yesterday two Dutch Regiments pass'd by here, in their Way to the Army; the same Day there landed at Ostend 3000 English Troops, and 150 Horses, which are likewise in full march for the Army, where two Regiments of Waraldins, and 1000 Hussars are hourly expected from Germany. As we can form no certain Judgment of the Motions of the French, after the Citadel of Tournay shall have fallen into their Hands; and as there is no Certainty whether they design to besiege Mons or Namur next; or whether they may not attempt somewhat against the Army of the Allies, it has been thought proper to retrench their advantageous Camp in the Neighbourhood of Lessines. The French give out, that Lieutenant-General de Philippe, who commands a flying Camp of 20,000 Men in the Neighbourhood of Maubeuge, march'd on the 27th, and took Possession of the important Post of Mafy, by which he has block'd up the Fortrefs of Namur on that Side. The same Day a Body of French Pandours burnt a Farm House within a League of the Camp of the Allies. In the Night of the 29th they attack'd some of our advanc'd Posts, but were repuls'd with Loss, and retired into a Wood. We are inform'd, that the Duke of Cumberland and Count Konigsegg having received certain Advices that the Governor of the Citadel of Tournay has positive Orders to defend himself to the last Extremity, they are using the utmost Diligence to put the Army under their Command into such a Condition, as that they may be able to make a Second Attempt for the Relief of the Place.

**Hague, June 2.** Baron de Reischach gave lately a grand Entertainment to such of the Ministers of the Allies as are here, in their Passage to Hanover. It is confirm'd, that the French Minister at the Court of the Elector of Trier, has declar'd, in the Name of his Master, that he will consider as a Declaration of War, the Vote of every Elector in favour of the Grand Duke of Tuscany. The last Letters from Germany say, that the Junction of the Army commanded by Count Traun, with that heretofore commanded by Duke Aremberg, and now by Field-Marshal Bathiani, will certainly take Place on the 8th; in Consequence of which, we shall soon expect from that Quarter Intelligence of the utmost Importance.

## SCOTLAND.

**Edinburgh, May 23.** Last Tuesday Night the Trial, Happy Janet, and Hazard Ships of War, fail'd from the Frith for the North, with a fair Gale, and had under Convoy the Icel and Fishing Vessels, and other Trade; in all about 30 Sail.

**Burntisland, May 21.** Yesterday arriv'd the ———, of Portlory, James Finlay, who fail'd from Leith last Saturday, about 12 o'Clock at Night; and at Nine, on Sunday Morning, was taken off St. Abb's Head by a French Ketch of eight Carriage Guns and 16 Swivels. He saw two other within two Leagues of him, one of 20 Guns, and the other a small one; they stript them of all except what was on their Bucks, and ransom'd them for 200 l. taking his Mate for the Ransomer. They

allow him only eight Days for his Voyage to Rotterdam; the Captain of the Privateer told him, he could allow him no more Days upon his Peril. The Ship is a Brigantine, laden with Coals.

## COUNTRY NEWS.

**Newcastle, May 25.** Capt. Birmingham, we hear, is dead of the Wounds he receiv'd in the Engagement with the Privateer off Flamborough-head, as lately mentioned.

Last Tuesday Afternoon a most barbarous Murder was committed near the Water Side, between Sunderland and Hilton-Castle; viz. Mr. Thomas Alder, sen. being occasionally that Way, was heard to call to Stephen Haddock, a Keelman, then going up Wear River in his Keel, that he would be aground; upon which, Haddock answer'd with great Oaths, that if he was ashore he would cut his Throat: Soon after Haddock came on Shore, he made up to Mr. Alder; and having knock'd him down with the Keel's Set, afterwards cut his Throat, ripp'd up his Belly and turn'd out his Puddings, and cut off his Privy Parts. Mr. Alder's Lad coming likewise that Way in that Instant, ask'd Haddock why he us'd his Master so ill, whereupon he swore he would kill him too; however, the Lad rode to Hilton-Castle, got five or six Men, who came and apprehended him, and carried him before Baron Hulton, who committed him to Durham Jail.

## FOREIGN PORT.

Jeremiah Mocher, for Riga; William Thompson, John Wilkinson, Newark Ingram, Thomas Wiggitt, and Thomas Thornton, all for Copenhagen from Newcastle; John Peters, from Carlscrona for London; William Stafford and John Jackson, from Belfast for Dantzick; Thomas Gleg, from Newcastle for Stralsund; Richard Thompson and James Young, from Newcastle for Copenhagen.

He came out the 19th of April last, in Company with the Ruth, Turner, the Adventure, Halwell, and the ———, Phillips, all for London. The two latter seeing the Ruth taken, flood in for St. Eustatia. We have a Confirmation of the French Squadron being at Martinico, consisting of one Ship of 74 Guns, one of 70, one of 60, one of 50, two of 40, and two of 36, with nine other Vessels under their Convoy; which had put every Thing at St. Kitts at a Stand. That the People were all under Arms; and that Brimstone Hill is in a good State of Defence, but very much wanted Succours from England. Commodore Knowles has three Sail of 50 Gun Ships, one of 40, three of 30, two Sloops of 14, and a Bomb Ketch of 12; seven of which were in English Harbour. A Ship belonging to Bristol is taken by a French Privateer, and carried into St. Vincent's; but no Letters say who she was. Also arriv'd the Dove, from Cork.

About two Leagues from the Lizard we saw a Ketch lying to; on which the Israel bore away, and flood for this Harbour. The Ketch chased her, but being light, she got off. The Ketch is supposed to be a French Privateer, which has been hovering about the Coast for some Days past.
